

MD Logic, Inc.

Hardware & Software Configurations For Installations For MD Logic World Wide EMR

The following must be completed before MD Logic software can be installed:

- **Client needs a Microsoft NT network with Terminal Services.**
- **Minimal requirements are as follows:**

SERVER

- **HARDWARE:**
 - ✓ Pentium IV or Xeon @ 2.4GHz or more
 - ✓ 4 GB memory
 - ✓ Mirrored SCSI hard drives 10K RPM; 72GB each configured with RAID controller
 - ✓ Internal Tape Drive Backup
 - ✓ Network Laser Printer
 - ✓ UPS Backup Battery
 - ✓ DSL/Cable/T1 connection
- **SOFTWARE:**
 - ✓ Microsoft Server 2000 or 2003 (We do not recommend Server 2003 Small Business Edition because of Terminal Service licensing issues.)
 - ✓ Microsoft Terminal Service or Citrix
 - ✓ Microsoft SQL 2000 Standard Edition or SQL 2005 Standard Edition with default settings
 - ✓ Microsoft .NET Framework 2.0
 - ✓ Microsoft Word XP/2003
 - ✓ File transfer ability (WTSFTP (must be registered) for Terminal Services or Symantec PC Anywhere 12)
 - ✓ Adobe Reader 7.0
 - ✓ Antivirus software required on all network computers

SCANNER

- Xerox DocuMate 262 or 272

WORKSTATIONS

- **HARDWARE:**
 - ✓ 450mhz 256mb memory 10gig hard drive
 - ✓ Touch screen Flat Panel
 - ✓ UPS Backup Battery

- **SOFTWARE:**
 - ✓ Microsoft Windows 2000 / XP Professional
 - ✓ Touch screen Drivers and Printer Drivers must be installed on all PCs that are to be loaded with MD Logic.
 - ✓ Remote Desktop Connection icons must be setup on desktop of workstations and set to login to MDLServer. Each workstation must have unique network login.
 - ✓ RealVNC must be setup to run as a service on each workstation, set any firewall to allow connections, and set the password to 'mdlogic'

NETWORK CONFIGURATION:

- ✓ The server designated for MD Logic must be named "MDLSERVER".
 - ✓ Account for MDLOGIC with "FULL" administrative rights are required.
 - ✓ The **high speed** internet connection (IP address) **must** be on server.
- 1) Please "fax" the following information to MD Logic corporate office at 770-497-1469 or 877-828-8736:
 - ✓ IP Address
 - ✓ Name and phone number of network company installing the network
 - ✓ Model and serial number of each PC running MD Logic software
 - ✓ Model and serial number of Server

 - 2) A date and time will be scheduled prior to installation for testing the IP for support services. An internet connection (IP Address) must be in place before the time of install.

BACKUP SERVER (optional)

- Same specs as main server
